ARYAN DEWAN (aka NOTE)

+91 9310459301
aryan.dewan.05@gmail.com

Front-end web developer proficient in ReactJS, Tailwind CSS, and JavaScript. Passionate about crafting responsive, user-friendly interfaces. Currently working on a freelance portfolio website project while continuously building and refining my skills through personal projects.

GITHUB: https://github.com/aryandewan

PROJECTS:

Portfolio Website for a Client   Freelance Project – Ongoing

- **TECH STACK:** ReactJS, TailwindCSS, GSAP
- **DESCRIPTION:** Designed and developed a portfolio website for a motion designer, focusing on smooth animations and a visually appealing UI to showcase their work.

Job Tracker: https://aryandewan.github.io/JOB-TRACKER/

- **TECH STACK:** ReactJS, TailwindCSS, GSAP
- **DESCRIPTION:** Job Tracker is a web app that helps users manage their job applications. It allows adding, viewing, and deleting job entries, tracking details like company name, job title, application date, and status to stay organized during the job search.

AniX: https://aryandewan.github.io/ANIMELIST/

- **TECH STACK:** ReactJS, TailwindCSS, GSAP, API
- **DESCRIPTION:** AniX is a web app for managing your anime watchlist. It lets users add, view, and delete anime entries while tracking their watch progress (e.g., watching, completed, plan to watch).

LIVECODECOLLAB: https://aryandewan.github.io/LIVECODECOLLAB/

- **TECH STACK:** ReactJS, TailwindCSS, GSAP, API, Firebase
- **DESCRIPTION:** LiveCodeCollab is a real-time collaborative coding platform that lets multiple users edit code simultaneously. It's ideal for pair programming, technical interviews, and collaborative learning.
